## Profile

I am a competent Software Developer with a passion for developing innovative solutions. My expertise lies in Mobile-App & Web Development where I thrive on building robust applications. My projects, including a full-stack, education-related Mobile-App and an AirBnB Web-App clone, highlight my proficiency in React, Node.js & Firebase

## Employment History

### Sunrise GmbH, Software developer, Zürich

AUGUST 2023 – PRESENT

- Developed client-oriented software in a team, including customer support features.
- Currently developing HR software for company needs, specifically in event planning.

### ICT Berufsbildungszentrum, Software Developer, Zürich

AUGUST 2022 – JULY 2023

Created software such as functional Mobile-Apps & Web-Apps as part of vocational training. For instance:

- Developed custom Web-App, called Nautica, which functions like AirBnB for boat rentals.
- Developed custom Mobile-App, the EduApp, an educational Mobile-App for motivated professors who want to create learning material for their students.

## Education

### IT Department, Technical Vocational School of Zürich, Zürich

AUGUST 2023 – PRESENT

Currently attending the Technical Vocational School of Zurich, as part of completing my apprenticeship.

- Results-oriented education, equipping me with the tools to excel in my career.
- Attending classes in: Data Protection & Security, Network Management for Companies, Data Analysis.

### IT Department, Vocational School of Winterthur, Winterthur

JULY 2022 – JULY 2023

Attended the IT branch of the school as part of my first year of my Application Development apprenticeship, taking part in classes such as:

- Application implementation & design
- Website creation & publication
- Assignment implementation in a professional environment
- Database creation and inserting data
- Process automation with a script language

## Courses

### Blockchain Development with Python, Udemy

OCTOBER 2023 – OCTOBER 2023
